### II. BACKGROUND

The importance of providing value education is felt necessary today because the present system of education cannot contribute much to the individual and social development. Value-oriented education does not mean preaching of mere moral sciences or propagating particular religious tenets, but it is imparting knowledge of values considered functional for both individual as well as society.

Gandhi's philosophical, religious, economic and social approach and a number of contemporary Gandhian perspectives are relevant to an understanding of human values and social change today. By Gandhian ideals in the education policy, we will be able to inspire the whole world by his ideas of truth, nonviolence, peace and love.
